Dear Friends,

If last year's pandemic tested human endurance to breaking point, it's onslaught continued this year as well, but with a difference. The suffering humanity, by our faith in God and our desire to overcome the challenges and provide a better future to our children, managed to find a way and the vaccine was found which has helped millions fight off the dreaded coronavirus. But well begun is only half done. We should still be careful, watchful, protective and hopeful in the knowledge that with every passing day, God is with us and He can make right every single thing if we take it up to Him with steadfast faith and that leads us to the theme of our message to all our students and youth on the occasion of the 25th founding anniversary of Don Bosco Vazhikaatti : IMAGINE, BELIEVE, ACHIEVE.

What the youth and students of the present day need is to live as per these three ideals. "Imagine". This means a lot. When a young person starts to imagine his or her future, the world will look very bright to them. Imagination sets the dream in motion. Imagination is also synonymous with envisioning. As the old saying goes, "The one who wins in life is the one who thinks he can". And this begins with that all important word - IMAGINE.

The next ideal is to BELIEVE. Belief is a Biblical virtue. It comes from faith. To believe in God is to understand that with God, we can achieve anything and without God, we can amount to nothing. So to have confidence in our own abilities we must first have strong belief in God and understand that we must also be good and pure of heart, mind and body. Even the greatest steps made by mankind are miniature compared to the steps made by God. So believe, and you will see that your faith has set you free.

The final ideal is to ACHIEVE. Achievement will only happen if you have the right set of combinations apart from imagining that you can succeed and believing that you can succeed. So what are those winning combinations? Let's closely look at the word ACHIEVE. A - Attitude, C - Character, H - Hard work, I - Integrity, E - Empathy, V - Values and E - Education. So, as a responsible generation, let us try to inculcate these virtues in our lives so that these can become our habits and our habits can in turn become our character.

Wishing you all the best in times to come.

**Merry Christmas & Happy New Year 2022.** God bless you.
